Understanding Piles

Piles are swollen veins in the lower rectum and anus, causing discomfort, pain, and sometimes bleeding. They can be internal or external and are often associated with factors like chronic constipation, pregnancy, and prolonged sitting. Symptoms may include:

- Pain or discomfort during bowel movements
- Itching or irritation around the anus
- Swelling or lump at the anus.
- Bleeding during bowel movements

Why Choose a Lady Doctor for Piles?

Choosing a lady doctor for your piles treatment can offer several benefits, especially for female patients who may feel more comfortable discussing their condition with another woman. Here are a few reasons to consider a lady doctor for piles:

- 1. Comfort and Understanding:** Female patients often feel more at ease discussing sensitive health issues with a lady doctor.
- 2. Personalized Care:** Lady doctors may have a better understanding of female-specific health concerns, including those related to pregnancy and childbirth that can affect piles.
- 3. Empathy and Compassion:** Lady doctors at Yazh Healthcare are known for their empathetic approach, ensuring that patients feel heard and supported throughout their treatment journey.

Treatment Options at Yazh Healthcare

At Yazh Healthcare, we offer a variety of treatment options for piles, depending on the severity of your condition:

- 1. Lifestyle Changes:** Simple changes like increasing fiber intake, staying hydrated, and avoiding prolonged sitting can help manage mild cases of piles.
- 2. Medications:** Over-the-counter creams, ointments, and suppositories can provide relief from symptoms like itching and pain.
- 3. Minimally Invasive Procedures:** For more severe cases, procedures like rubber band ligation, sclerotherapy, and infrared coagulation can be effective.

4. Surgical Options: In cases where other treatments are not effective, surgical options like hemorrhoidectomy or stapled hemorrhoidopexy may be recommended.
